

Building on the Past, Preparing for the Future

**Few things stand the test of time.
Washington-Centerville Public Library is one of them.**

Established in 1810, WCPL continues to meet the needs of Centerville/
Washington Township residents some two centuries later. By evolving collections,
services and programs the Library adds to the quality of each of life's stages.

- From snuggling in a parent's lap for a bedtime story borrowed from the Library,
- to learning to read independently thanks to weekly storytimes,
- to succeeding in school with the help of librarians and library resources,
- to launching or growing a career as a result of Library-hosted skill-building classes,
- to connecting with neighbors and new friends at Library events.

For 200+ years the Library has been enriching our community and our lives.
