
This year marks the 50th anniversary of Woodstock. It's the perfect time to take advantage of the large variety of music, and music formats, available at Washington-Centerville Public Library! In 2018, library patrons checked out some form of music more than 30,000 times. Whether you prefer a traditional CD or like the convenience of downloading songs to your smartphone or MP3 device, the Library has something for everyone!

Compact Discs – This tried-and-true format still gets plenty of usage. With more than 7,600 CDs from which to choose, the Library can satisfy music interests spanning almost every genre. From country and rock, to indie and classical, listeners will surely find something they can enjoy.

Freegal – This digital music streaming service offering over a million songs, including top hits, is accessible from the Library’s website. Listen to 5 hours of commercial-free, streaming music and download up to 5 songs per week. Freegal content is always available, so you never have to wait for your favorite music! Within Freegal, listeners can create playlists and save favorites for listening to again later.

Hoopla – Download or stream thousands of albums, from show tunes to chart-topping hits, via Hoopla. Like Freegal, all Hoopla content is always available. Albums check out for one week and automatically check back in on the due date so you never have to worry about overdue fines!

The Freegal and Hoopla apps are available in the Apple App Store and Google Play Store. Both services require a quick account setup in order to access content. For more information visit wclibrary.info/ecollection.
