Library Expansion Designs Unveiled

The Washington-Centerville Public Library invites citizens to view the newly approved schematic designs for the expansion and renovation of the Woodbourne Library at an Open House on May 10th, 6 PM at Woodbourne Library.

“The valuable input of citizens, library trustees and staff as well as guidance from our architects, LWC, Inc. have produced a design that will meet the changing needs of library users well into the future,” said Bob Hanseman, President of the Library Board of Trustees.

The approved schematic designs feature more spaces for library programs and small groups and tutors, a creativity space, and lots of inviting areas for both active and quiet use. The design also includes ample space to maintain the library’s diverse collection of books, movies and music. “The design is both beautiful and functional,” adds Mr. Hanseman. For those who cannot attend the Open House, schematic designs can be viewed after May 10th, at www.wclibrary.info.
